Introducing GM³

On 29 August 2024, South32 successfully completed the sale of its Illawarra Metallurgical Coal (IMC) assets, including Appin Mine, to GM³.

GM³ is a metallurgical coal mining company, owned by Golden Energy and Resources (GEAR) and M Resources - both established participants in the Australian metallurgical coal industry, with a strong commitment to environmental and safety standards.

Supporting the region

At GM³ we are focused on long-term sustainability, dedicated to delivering strong social performance, environmental management, and economic value for the region and the resources industry.

We are proud to be part of the Macarthur region and are committed to the area's long-term future for our people, their families, and the broader community.

A message from Andy,

As we approach the holiday season, I would like to extend my heartfelt thanks to our community for your ongoing support throughout the year.

This has been a significant year for our business, with the transition from South32 to our new owners, GM³. While ownership has changed, our experienced local team at Appin Mine has remained largely unchanged, continuing our proud 65-year history of producing high-quality steelmaking coal since 1959.

Reflecting on the past year, we are especially proud of the work we've done with our Community Trust. Through this partnership, we have been able to support local organisations, fund important community projects, and contribute to a wide range of programs that help strengthen the fabric of our local region. Some of the highlights include supporting Appin Men's Shed, Douglas Park Public School Playground, and the River Road Creative school music program.

On behalf of the team at Appin Mine, I wish you and your families a safe, restful, and joyous holiday season.

We look forward to continuing to work together in 2025.

Warm regards,

Andy Hyslop

General Manager - Appin Mine
