Subject: Appin Area 7 – Longwall 711 – Extraction Plan Variation 2 (MP 08\_0150)

Dear Mr Blunden,

I refer to the Appin Area 7 – Longwall 711 – Extraction Plan Variation 2 submitted in accordance with Condition 5 of Schedule 3 of the Bulli Seam Operations Project Approval (MP 08\_0150).

The Department has reviewed the variation document together with the Extraction Plan for Longwalls 709 to 711 and Longwall 901 as approved on 29 July 2022 and subsequently varied on 15 March 2023.

I note the Appin Area 7 – Longwall 711 – Extraction Plan Variation 2:

- divides Longwall 711 into A and B sections, with a solid coal barrier supporting mains development between the A and B longwall sections while remaining otherwise consistent with previously approved mine geometry;
- contains predictions that demonstrate reduced or equivalent impacts to those previously described in the approved EP; and
- contains the information required by the conditions of approval.

Consequently, the Department is satisfied that the requirements of the relevant conditions of consent (MP 08\_0150) are met.

You are reminded that if there are any inconsistencies between the Extraction Plan and the conditions of approval, the conditions prevail. Please ensure you make the document publicly available on the project website at the earliest convenience.

If you wish to discuss the matter further, please contact Gabriel Wardenburg on (02) 9585 6810.

Yours sincerely

Jessie Evans
