Modification Description

GM3 has undertaken a review of key surface facilities at the Dendrobium Mine and identified a requirement to improve current land management practices at the Dendrobium Pit Top and other ancillary works required to maintain safe and effective surface operations.

How is the modification substantially the same as the original development?

The Dendrobium Mine demonstrably remains a large coal mining operation that incorporates the following key elements approved under Development Consent (DA 60 3 2001):

- ? underground mining;
- ?- coal handling and processing facilities;
- ?- rail and train load out infrastructure;
- ?- water supply and water management systems; and
- ?- supporting infrastructure and facilities.
