Tahmoor Mine Community News

NOVEMBER 2026

Tahmoor on track for December restart

Last week, we welcomed another group of employees to Tahmoor Mine as they completed their onsite inductions ahead of joining the operation under GM^3.

With recruitment and onboarding continuing, the operation is progressively building its workforce towards more than 580 personnel as preparations ramp up for mining to restart in Longwall S4A.

Thanks to the hard work and dedication of our teams onsite, restart activities are in the process of being finalised. Mining of Longwall S4A is anticipated to commence in early December.

This is a great milestone as the team continues to grow, building a strong future for Tahmoor Mine.

Tahmoor supports the 2026 Picton Show

GM^3 Tahmoor Mine was proud to be a major sponsor of the 2026 Picton Show, supporting one of Wollondilly's much-loved annual community events as it celebrated its 85th year.

Our sponsorship helped bring the Community Stage and Saturday evening Rodeo Concert Stage to life, providing a platform for local schools, dance groups, young musicians and community performers to showcase their talents alongside live music throughout the weekend.

The entertainment program brought families and visitors together, and added to the atmosphere of this longstanding celebration of the region's agricultural heritage and community spirit.

As a local employer, GM^3 Tahmoor Mine is proud to support events that bring our community together, celebrate local talent and contribute to the vibrancy of the Wollondilly region.

Latest Community Grants

Through our Community Investment Program, GM^3 Tahmoor Mine is proud to support the following initiatives:

Owloween at the Australian Wildlife Sanctuary
Owloween – The Haunted Sanctuary event in Bargo, brings a unique Halloween experience to families across Wollondilly. Our support contributes to local events that bring the community together and help make the region a great place to live, work and visit.

Great Cycle Challenge - Children's Medical Research Institute
Bargo resident Marjo and her grandson Hugh took part in the Great Cycle Challenge for the 10th and 8th year respectively. Marjo is riding 400km, while nine-year-old Hugh is tackling 50km, raising funds to support research into childhood cancer.

Wollondilly Anglican College P&F Golf Day
Tahmoor Mine was proud to support Wollondilly Anglican College's 18th Annual P&F Golf Day, helping the college raise funds to support its students, facilities and educational resources.

Walk for Sheree - Cancer Council
Tahmoor is proud to support the ninth annual Walk for Sheree – Walk Against Cancer, held in memory of Sheree, the late wife of a Tahmoor employee and mother of three. The event brings family, friends and the community together to honour Sheree's memory and raise vital funds for the Cancer Council.

Event details:
Date: Sunday 13 December 2026
Time: 9.00am
Location: Towradgi Park, Towradgi
Distances: 3km, 5km or 10km

What to expect as mining approaches your area

As preparations for mining of Longwall S4A continue, Tahmoor Mine and its specialised contractors are undertaking routine pre-mining activities across the Tahmoor South area. These activities will continue as mining recommences, helping establish baseline conditions and support ongoing monitoring throughout the mining period.

Residents may notice contractors undertaking the following activities:

- **Survey monitoring:** Installation of survey markers and baseline street surveys.
- **Groundwater sampling:** Sampling of groundwater bores to record water quality and levels.
- **Surface water monitoring:** Sampling and visual inspections of creeks, streams, waterways and natural springs.
- **Dam and steep slope inspections:** Geotechnical assessments to identify geological conditions and identify any potential risks.
- **Swimming pool inspections:** Complimentary pool safety inspections to check gate operation and latching. Once properties enter the active subsidence zone, weekly inspections will be undertaken by qualified personnel, with arrangements made directly with property owners. **If you have a pool and would like to participate in this program, please contact Tahmoor Mine on 1800 102 210 or email community@gm3.au.**

These activities help establish baseline conditions and support ongoing monitoring and management as mining progresses.

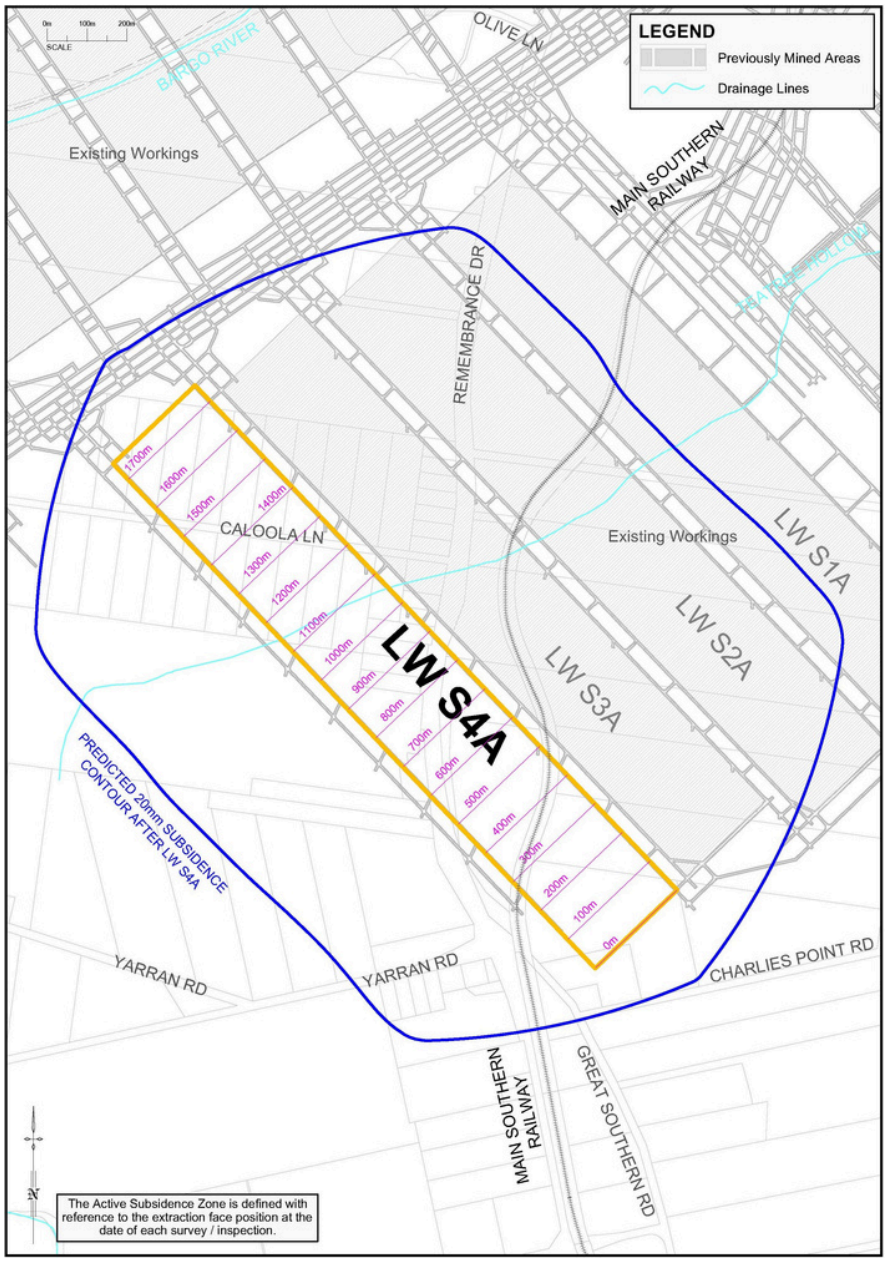

Figure 1 - Longwall S4A Mine Plan

Tahmoor Mine Plan

Figure 1 highlights the location of Longwall S4A in yellow.

- The blue line (predicted 20mm Subsidence Area) indicates the area predicted to experience subsidence from LW S4A mining.
- The grey shading depicts the previously mined areas.

Tahmoor Mine is committed to ensuring the community is informed and up to date with our mining operations.

Mining of Longwall S4A is expected to commence shortly, pending finalisation of operations.

The longwall will be mined from the south-east (near Charlies Point Rd) and progress in a north-west direction as per Figure 1.
